MELODY OF LIFE

In every name and birthdate You can
find a hidden melody..
Even the old masters of music knew
about this constellation.
Be pleasantly surprised.
The musical result will be like a little
melodic portrait of Your Offspring

Pointing towards it`s future

Playful & calming & graceful

Hans-Jörn Brandenburg

Composer, Arranger, Director

After a longterm career as Composer, Grammy nominated Arranger and Musical Director for international theatre productions, e.g. with Robert Wilson, Tom Waits, Rufus Wainwright, I am now focusing on my piano- and chamber music.

Being a father of two children, I always liked to compose for kids.

Beside the music I work as a part-time Yoga teacher in Berlin/Germany.

My compositions are also available in print!

A PIANO COMPOSITION FOR YOUR BABY

For generating a special melody for Your baby, I use the letters of the first name and numbers of the birthdate of the child! Then I arrange the notes into a personalized composition. A wonderful task for a composer!

You will get the result in form of a special music print, sound file and video by mail.
